

National Association of Professional Geriatric Care Managers Chapter Information & Application

If you have not joined a chapter, here's your chance!

The following is a list of chapters, including chapter presidents, and the chapter dues amount. If you are interested in joining a chapter, please fill out the application at the bottom of the page and return it to national with your dues. Chapter Presidents are listed for information purposes only.

NAPGCM Benefits of Chapter Membership

The work of the Professional Geriatric Care Manager is rewarding; however, it can be stressful and cause one to feel isolated at times, especially in a small or solo practice. NAPGCM Chapters offer you opportunities to connect with professional colleagues, providing you with a venue in which you all "speak the same language," regardless of the professional discipline from which you work.

Chapters offer excellent opportunities to meet with colleagues on a local or regional basis. In addition to sharing and learning from one another, chapters provide a variety of opportunities for educational and professional growth.

We encourage you to join your local chapter and reap the additional benefits of your membership in NAPGCM. (Membership in NAPGCM is required to join a Chapter.)

Chapters offer services that are aimed at providing you with:

- Peer support and supervision
- Business and professional development
- Educational opportunities
- Cutting edge clinical information
- A united front for the profession: a means of professional identification
- Leadership training
- Networking opportunities
- A venue to share and learn about new and exciting resources
- Increased business through referrals from those out of your specific geographic area, and even sometimes from a local colleague
- Joint marketing opportunities
- Local units are available in many chapters, providing an opportunity to share ideas and concerns on a more local basis
